

Infrastructure Solutions – Mission Critical

Zero U Verticle Rack Mount PDU, 14 Outlets, 15A, Circuit Breaker
Model: PDU1415-VM

- Modular design for quick installation
- Scalable to match enterprise growth
- Optimized installation and operation costs
- Easy integration with all racks
- With over 40 years of leadership in core technologies of power electronics, the expert teams at Delta continuously innovate for next generation infrastructure solutions.
- Delta’s power distribution units (PDU) provide optimal power distribution for critical rack components. Delta offers a range of basic and metered PDUs for any application.

Model No.	
PDU1415-VM	
Output	
Frequency Compatibility	50 / 60 Hz
Output Receptacles	14 (NEMA 5-15R)
Circuit Breaker (amps)	15A
Watts	1,800W
Input	
Voltage Compatibility	125V AC
Recommended Electrical Service	15A 120V AC
Input Connector	NEMA 5-15P
Input Cord Length	15 Ft
Input Cord Gauge	14 AWG x 3
User Interfaces	
Switches	Red illuminated 2 position switch
Buttons	Circuit function reset
LCD Display Meter	None
Physical Characteristics	
Unit Dimensions (inches)	36" (L) x 1.63" (W) x 1.25" (H)
Construction Material	Black Anodized Aluminum
Receptacle Color	Black
AC Line Cord	Black
Supported Form Factors	Verticle Rack Mount (Zero U) Brackets Included
Regulatory	
Certifications	UL/cUL (UL1363)
Warranty	
Product Warranty	3 Year limited warranty
